

Idaho Hot Mix Asphalt (HMA) Workmanship Training

Weds., April 8 (8A – 4P) – Thurs., April 9 (8A – Noon)

AGC Training Room
Boise, ID

Federal Highway Administration (FHWA) Code of Federal Regulations (23 CFR 637) requires that each road building agency ensure that materials and workmanship be covered within the QA program to ensure that the highest quality system will be built. *Your* Idaho Best Management Practices Asphalt Training includes:

Teamwork & Safety, Surface Preparation, Delivery, Placement, Compaction, Joint Construction, Segregation Mitigation, and Acceptance Test Strips.

Idaho AGC
A PROUD CHAPTER OF AGC OF AMERICA

Students will work together with Tim Murphy of Murphy Pavement Technology, Inc. as we explore HMA quality and efficiencies through a review of the mix design, production, process control, PWL, and deep exploration of the construction phases (primarily).

Murphy Pavement Technology

7649 So. State St. * Chicago, IL 60619
Ph: 773-874-9800 Fax: 773-874-1136
