

# GIS for Tribal Planning, Transportation and Traffic Safety

**August 8-12**

## **28th Annual Summer Tribal Planning Institute**

**Presented by:  
Northwest Tribal Technical Assistance Program  
and EWU Tribal Planning Program**

During this weeklong workshop, you will learn the basic fundamentals of using Geographical Information Systems to advanced applications through hands on learning, lectures, and field data collection. You will use ESRI software to apply the necessary skills for tribal transportation planning and transportation safety. You will also learn how to download and develop traffic safety crash data within your reservation boundary and adjoining areas.

### **Presenters:**

**Byron Bluehorse**  
Director Alaska TTAP Center

**Dr. Kerry Brooks, GISP**  
EWU Planning Faculty

**Adam Larsen, P.E.**  
Transportation Engineer  
FLH- IRR Team

**EWU Riverpoint Campus**

**668 n Riverpoint Blvd.**

**Spokane, WA**

**SEWC Building Room 209**

### **Questions?**
