Boise, ID, 83705

Subject: FY19 Hazard Mitigation Assistance Funding Opportunities

To: All Eligible Idaho Applicants

Dear Partner,

The Idaho Office of Emergency Management (IOEM) announces the availability of FY 2019 Hazard Mitigation Assistance grant programs funds for Pre-Disaster Mitigation (PDM) and Flood Mitigation Assistance (FMA) through the U.S. Department of Homeland Security Federal Emergency Management Agency. These grant opportunities provide risk reduction to individuals and property from natural hazards, while simultaneously reducing reliance on Federal disaster funds. The attached Fact Sheets provide funding and program information.

The FY 2019 state priorities are for flood mitigation projects. Eligible sub-applicants include federally recognized Native American Tribal governments, agencies of state and local governments (city, town, or county), special district governments, and certain political subdivisions that adopted local FEMA approved mitigation plans. Projects must exist in an approved, current plan.

The attached letter of intent (LOI) is due to IOEM September 30, 2019. IOEM will review submitted LOI's and identify eligible project and plan proposals and then notify subapplicants to submit applications through the FEMA eGrants portal <https://portal.fema.gov> September 30, 2019 – December 20, 2019.

If you have questions, please contact our Mitigation staff: Susan Cleverley, 208-258-6545, Mary Mott 208-258-6521, Lucille Webster 208-258-6581 or via email 2018MitigationGrants@imd.idaho.gov.

Sincerely,

A handwritten signature in black ink, appearing to read "BRAD RICHY".

Brad Richy, Director
Idaho Office of Emergency Management
