

BASIC PAVEMENT MANAGEMENT

for local agencies

Webinar

Too much pavement repair work and not enough budget?

It can be tricky to prioritize roadway repair projects, especially given public and political pressures. This class will help you determine how to get the most from your maintenance budget and increase the long-term quality of your roadway network.

Part 1: June 9, 1:00 – 3:00 pm

Part 2: June 10, 1:00 – 3:00 pm

4 ROADS Scholar credits

*You must attend both sessions to receive credit

Who should attend?

Decision makers, elected officials, street superintendents, road foremen, project coordinators, and crew leaders.

Key Topics:

- Deterioration curves
- Inventory & condition
- Distresses and causes
- Treatment options
- Remaining service life
- Budget planning
- Case studies
