# **Council Meeting Conference Call March 30, 2015**

## **Agenda**

11:00 a.m. – 11:30 a.m. Federal-aid Program Rankings Revisions

# LHTAC STAFF REPORT

March 30, 2015

**Agenda Item:** 2015 Urban, Rural, and Bridge Rankings

**Presenter:** Scott Ellsworth, Federal-aid Manager

## **Overview**

As presented at the March 2015 Council Meeting, the application rankings were reviewed and approved as included with the staff report. Since the Council Meeting, the rankings have been audited and with the final review errors were determined.

**Urban Applications:** The Urban Program received three applications. After further review, the urban balance report from ITD had not shown a current project awarded to the City of Rathdrum. However, in 2013 the City of Rathdrum was awarded a project which is currently programmed for Preliminary Development. Consequently, the City of Rathdrum's balance is not positive, so the city is not eligible. Therefore, only two of the three urban applications received are eligible to be ranked. The attached Urban Program rankings show the two remaining project rankings.

**Bridge Applications:** The rankings were reformatted for Local Bridge and Off-System Bridge programs. During this process the formulas for rankings were audited and errors were determined and corrected which changed some of the rankings. On the Local Bridge program rankings, Doumecq Highway District and Gem County's rankings changed.

On the Off-System Bridge program rankings, Valley County, Buhl Highway District and Teton County changed rankings. The attached Local Bridge and Off System Bridge Program rankings show the new order to be used as funding is available.

**Rural Applications:** Since errors were determined on the bridge ranking spreadsheet, the rural application rankings were also audited and errors were

## LHTAC STAFF REPORT

March 30, 2015

found. The corrected ratings changed the rankings of the applications. Those affected are Jefferson County, City of Priest River, Boundary County, Lakes Highway District and East Side Highway District. The attached Rural Program rankings show the new order to be used as funding is available.

Staff regrets the errors and taking your time to consider the revisions of the rankings, but we know these projects are important to the local highway jurisdictions that submitted and we want to be correct in the rankings. No other Federal-aid Project rankings were affected.

### **Recommendation:**

Staff recommends approving the attached revised rankings which will fund new projects in order as funding is available.
